June 30, 2015

Dear Subscriber:

We will be adding material to this shell letter after today’s reports are released at 11:00 a.m.

Be sure to click back on the link often for the latest information.

Before we get too far – today is Dave’s last day at Illinois Public Media covering agriculture. He retires with well over a quarter century of
Broadcasting to the public from the WILL-AM 580 studios – but know our organization remains committed to providing meaningful agricultural information in the future!!! So hats OFF to Dave (or as Paul Coolley would say, “a tip of the hat to Dave” for all his work over the years....

Now on the to the matter at hand. Today USDA repealed its long anticipated Acreage Report as well as a Quarterly Grain Stocks report.

Those reports – as well as the continuing narrative on too wet weather should provide some support under the market all the way to harvest as many end users do not have long term coverage.

Here are the key numbers:
From the Acreage Report:

Corn planted area for all purposes in 2015 is estimated at 88.9 million acres, down 2 percent from last year. This represents the lowest planted acreage in the United States since 2010.

Soybean planted area for 2015 is estimated at a record high 85.1 million acres, up 2 percent from last year. Area for harvest, at 84.4 million acres, is also up 2 percent from 2014 and will be record high, if realized. Record high planted acreage is estimated in Kentucky, Minnesota, Ohio, Pennsylvania, and Wisconsin.

All wheat planted area for 2015 is estimated at 56.1 million acres, down 1 percent from 2014. The 2015 winter wheat planted area, at 40.6 million acres, is down 4 percent from last year and down less than 1 percent from the previous estimate. Of this total, about 29.6 million acres are Hard Red
Winter, 7.61 million acres are Soft Red Winter, and 3.44 million acres are White Winter. Area planted to other spring wheat for 2015 is estimated at 13.5 million acres, up 4 percent from 2014. Of this total, about 12.6 million acres are Hard Red Spring wheat. Durum planted area for 2015 is estimated at 1.95 million acres, up 40 percent from the previous year.
