

WILD KRATTS

Animals can take you anywhere in science! Creature teachers Chris and Martin Kratt take kids and their families along on extraordinary animal-powered adventures in **WILD KRATTS**. The show transforms the Kratt Brothers, creators of the award-winning *Kratts' Creatures* and Emmy-winning *Zoboomafoo*, into animated versions of themselves, allowing the real-life zoologists to visit wild animals in their little-seen habitats and showcase key science concepts along the way. From elephants using physics to suck gallons of water with their trunks to a fleet of peregrine falcons that harness the force of gravity to speed through the air, each half-hour episode of **WILD KRATTS** presents age-appropriate science inspired by the natural abilities of the animals that the Kratt brothers – and young viewers – meet. The debut series is a co-production of The Kratt Brothers Company and Emmy-winning 9 Story Entertainment.

TARGET AGE	6-8	
CURRICULUM	STEM (Natural/Animal Science)	
ON PBS KIDS SINCE	2011	
CURRENT STATUS	NPS, NPS-Weekend, 24/7
